

BEAUMARIS MIDI WOODSTONE BAT BOX – WHITE

SPECIES: BAT

MATERIAL: WOODSTONE

OUTER DIMENSIONS (CM): 29 x 40 x 7

INNER DIMENSIONS (CM): 19 x 30 x 2

WEIGHT (KG): 5

This small bat box is preferably placed on the facade but may also be suitable for installation in trees. The box is finished in white to reduce the likelihood of overheating when installed in sunny, warm places.

Several species of bats can use this bat box, depending on the local species and where the box is hung. The box is suitable as a summer and/or breeding box, and in mild winters, it can also serve as a shelter.

The box is made of WoodStone® (WoodStone® is a mix of 100% FSC-certified wood fibres and concrete) and comes with dowels and screws for mounting.

SPECIES GROUP: Brandt's Bat, Brown Long-eared Bat, Common Brown Long-eared Bat, Common Pipistrelle, Daubenton's Bat, Nathusius' Pipistrelle, Natterer's Bat, Noctule, Pond Bat, Serotine, Soprano Pipistrelle, Whiskered Bat

SITING:

- Place the bat box in a suitable location on the facade using the provided dowels and screws.
- Install the box at a minimum height of 3 meters.
- The box is less suitable for installation in trees, but it can be done.
- The box can be placed facing any wind direction.
- Provide a clear approach and egress route for the box.
- Do not place boxes above windows and doors.
- Do not install the box on illuminated facades or in light from lampposts, etc.
- It is preferred to have multiple boxes placed near each other. When doing so, vary the wind direction and altitude.
