Large Colony Bat Box

SKU:B1LCBZZZZ

Construction: External grade FSC® Certified Plywood with wood wool inserts. Panels stapled together with surface sunk staples.

Usage: Crevice roost chamber provides roost space for crevice dwelling bats such as Common Pipistrelle, Soprano Pipistrelle and Barbastelle's.

Maintenance: External surfaces treated with water based non-toxic, non-volatile wood preservative. Active constituent natural borate mineral salt.

Installation: Externally mounted on walls, trees and buildings using 4 mounting holes in rear panel of box. Ideally positioned as high as possible in a sheltered, sunny place.

Access: Removable roof (secured with two screws) with two stage opening to facilitate monitoring and avoid trapping bats' feet.

Weight: approx. 13 kg
